

WORLD CLASS MANUFACTURING: EXPERIENCE, QUALITY, RELIABILITY

Headquartered in Mexico City, Indux celebrates 58 years of innovation and manufacturing a full line of products and turn key fastening solutions designed for the unique needs of its customers. Through half century of commitment in partnering with global leaders and building an unparalleled expertise, Indux has become a strategic source to OEM and Industrial suppliers for various fastening solutions covering a broad range of markets including automotive, transportation, textile, construction, shoe and fashion.

With fully integrated operations in Mexico from in house tooling and design through final heat treating and specified finishing, Indux services the North American market with products and solutions including a comprehensive line of rivets. With sales offices in Chicago and New York, and throughout Mexico Indux is positioned to provide total value as your onshore solution.

Cold Formed Products

Indux provides full service forming capabilities and complimentary value added processes for a diverse breath of rivet products and offers nearly unlimited capabilities for customized industrial rivets and components.

Forming capabilities range from 1/16" diameter to 1/2" diameter up to 4" in length for standard and specials.

Finishing

Indux prides itself on their in house finishing capabilities including, heat treating, painting, powder coating , plating and anodizing. RoHS compliant.

ISO/TS 16949:2009 CERTIFIED

Indux has established itself as a leader in the manufacturing of drive pin rivets. The drive pin rivets are sold to fastener distributors throughout the United States.

The company's product line consist of a broad range of rivets including open end blind rivets, multi-grip blind rivets, closed end blind rivets, structural blind rivets, brake and clutch rivets, cold headed specials, solid and semi-tubular rivets, eyelets, grommets, pins and specialty fasteners, grease fittings, zinc injection molding, stampings, rivet setting machines and setting tools. In addition to standard commercial rivets Indux manufacturers rivets to Mil-Spec requirements. As a certified NAFTA member, Indux is in position to provide total value for your onshore solution.
